## PPIRS

### *Past Performance Information Retrieval System*

**Yolanda Moore/Chawn Harris  
Apr 20, 2016**

# What is PPIRS?

- PPIRS is a web-enabled, Federal enterprise-wide application that provides timely and pertinent contractor past performance information to the Department of Defense and Federal acquisition community for use in making competitive source selection decisions

# What is PPIRS?

- PPIRS is the sole Federal repository for contractor past performance information
- System is owned & maintained by the Navy (NAVSEALOGCEN)
- PPIRS has two parts:
  - **Report Cards (RC)** - Above established threshold of \$5 million for DLA
  - **Statistical Reporting Next Generation (SR-NG)** - below established threshold of \$5 million for DLA
- Your main focus will be on (SR-NG)

# Goals

- Improve contractor performance
  - Better quality material
  - Increase on-time delivery
  - Identify/Eliminate procurement risks
  - Decrease contract administration costs
- Allow vendors to maintain surveillance of their supplier scores and challenge erroneous data

# How does PPIRS-SR (NG) work?

- PPIRS-SR NG collects quality and delivery data from numerous Department of Defense (DoD) databases, aggregates that data using algorithms, and provides the user with objective Quality and Delivery Ratings of a contractor's past performance

"Weighted Delivery Score"

Quality Color Classification

# PPIRS-SR (NG) Business Rules

- Uses a 3 years of past performance/historical data
- Scores/Classifications are now updated each day vs. each month
- Performance classified by cage & commodity
  - Federal Supply Classification - FSC (DoD uses)
  - NAICS - North American Industry Classification System
- Quality and Delivery records are weighted

# Delivery Performance

- Scores/Classifications are based on the total number of Contract Line Items (CLIN's) shipped or received
- Weighted delivery scores are presented as a numeric value (Range: 0 - 100)
- An unscored offeror, or one that has no past performance history for the particular FSC, is considered to be neutral (i.e., not

# Delinquency Factors

- Delinquent lines include
  - Lines not shipped by the contract delivery date (CDD)
  - Lines partially shipped by the (CDD)
- Contractor-caused cancellations and terminations are coded Termination Indicator Code (TIC) K
- Terminations for Default (TIC) K
- Government-caused cancellations/terminations will not impact the delivery score (TIC) G
- No grace period

# Delinquency Factors

**Days Late Exceptions:** Some cancellations/terminations are counted as delinquencies.

- Terminations for *Cause/Convenience* (TIC) K will be assessed at 180 days late
- Terminations for *Default* (TIC) K will be assessed at 360 days late
- *Contractor Requested* cancellations (TIC) K will be assessed at 180 days late
- Awards terminated *Cause/Convenience* (TIC) G are not included in the delivery score

# PPIRS-SR (NG) Delivery Evaluation Criteria

- **DELIVERY PERFORMANCE:**

A contractor's delivery performance will be based by Federal Supply Classification (FSC) or North American Industry Classification System (NAICS). The contractor's delivery performance will be based on a weighted combination of the percentage of contract line items with on-time deliveries and the average days late for all deliveries. The formula and weights for delivery performance are:

$$\text{Delivery Score} = (\text{On-time Weight} \times \text{On-time Score}) + (\text{Average Days Late Weight} \times \text{Average Days Late Score})$$

- On-time Weight = .6
- On-time Score =  $100 \times (\text{number of lines shipped on-time during rating period} / \text{number of lines shipped during rating period})$
- Average Days Late Weight = .4
- Average Days Late Score = maximum of  $((100 - (\text{total days late during rating period} / \text{number of lines shipped during rating period})) \text{ or } 0)$ , whichever is higher

# Quality Classifications

PPIRS-SR Quality Classifications is a Comparative Assessment Among Suppliers

- Positive and Negative Records (Weighted)
- Produces Quality Score and Color
- Considers Number of Line Items

**Top 5% - Dark Blue**

**Next 10% - Purple**

**Next 70% - Green**

**Next 10% - Yellow**

**Bottom 5% - Red**

# Vendor Classifications

- **Scoring Types:**

- **Current** (Being used by Contracting Officials)
- **Pending** (No longer being used)

- **Vendor Challenge Process:**

- Suppliers **MUST** access PPIRS-SR (NG) to review and formally challenge scoring data
- May challenge each case a total of 2x times
- May challenge any case within the 3 year capture period
- New records challenged during the 14 day preview period will still be held out of scoring consideration until adjudicated

Providing Information for Best Value Awards

PPIRS-SR NG Login

Welcome to the Past Performance Information Retrieval System Statistical Reporting Next Generation (PPIRS-SR NG). All data in PPIRS is classified as Source Selection Sensitive and is not releasable unless directed by the agency who submitted the data. This policy is under the direction of Office of Federal Procurement Policy (OFPP) in the Office of Management and Budget (OMB).

In May 2010, PPIRS was designated as the government wide single repository of past performance data. Confidence in a prospective contractor's ability to satisfactorily perform contract requirements is an important factor in making best value decisions in the acquisition of goods and services. PPIRS supports the Federal Acquisition Regulation (FAR) requirement to consider past performance information prior to making a contract award (FAR Parts 9, 13, 15, 36 and 42).

PPIRS-SR NG provides past delivery and quality performance information for commodities including contracts under the mandatory reporting thresholds established in the DFARS. The sources of data include: the Department of Navy's Product Data Reporting and Evaluation Program (PDREP) for quality and delivery, the Air Force's J018 Contract Reporting System (delivery), the Joint Deficiency Reporting System (JDRS) for Joint Services aviation PQDRs, and DLA's Enterprise Business System's (EBS) eProcurement application (delivery). The Air Force delivery system J018 is fed from J041 and is used only by the three Air Force Logistics Centers (Robins AFB, Tinker AFB, and Hill AFB). The Army's Logistics Modernization Program - Virtual Contracting Enterprise Reporting and Delinquency System (LMP-VCEERADS) is scheduled to be included in the future for delivery record reporting.

Government access is restricted to those individuals who are working on source selections, to include contractor responsibility determinations.

Contractors may view only their own data. A contractor must be registered in the "System for Award Management" (SAM) system, must have created a Marketing Partner Identification Number (MPIN) in the SAM profile, and obtained a PKI (Public Key Infrastructure) digital certificate to access their PPIRS-SR NG information.

PPIRS SR is sponsored by the Defense Logistics Agency (DLA) and administration by the Naval Sea Logistics Center Portsmouth.

**PKI Information:**  
All DoD employees (military and civilian), including DoD contractors that are working on site (military/government facilities) or contractors working offsite using Government Furnished Equipment (GFE) are eligible to obtain certificates from DoD PKI. If the contractor doesn't work onsite or with GFE they are encouraged to obtain and use a certificate from an External Certificate Authority (ECA).

**External Certificate Authority:**  
External Certificate Authorities (ECAs) provide digital certificates to the DoD's private industry partners, contractors using their own equipment or working in non-government facilities, allied partners, and other agencies.
